

Alessandro Mita

DIGITAL DESIGNER & DEVELOPER • MILANO

I am a Digital Designer from Milan with a great passion and drive to create. I have a strong interest in technology and the design world, which keeps me constantly updated on the latest developments in both fields. At work, I am committed and professional, without missing the right moment for a good laugh.

/ EXPERIENCE

Freelance Developer

Jan 2026 – today

Mercurio S.A.S.

Development of a headless CMS + Ecommerce and an OCR processor on AWS and Google Cloud. Microservices architecture with Gemini API integration in the OCR pipeline for document processing.

Stack: Python, JavaScript, TypeScript, Git, AWS, Google Cloud, MedusaJS, Strapi, Gemini API, Docker.

Freelance Developer

Mar 2026

Restaurant Al Galletto

Development of a showcase website with design in Figma and deployment on Vercel using the Astro framework for high-performance static output.

Stack: JavaScript, Astro, HTML/CSS, UX/UI, Git, Figma.

Course Instructor

May 2026 – Jun 2026

IED Milan • Backend Course

Teaching and academic support for an introductive backend course. Guiding students through the design and development of REST APIs and server-side structure/architecture.

Stack: Python, Django.

/ UNIVERSITY PROJECTS

Atherea – Bachelor's Thesis

Mental wellness ecosystem composed of Apple Vision Pro, Apple Watch and a React dashboard, with mixed reality mindfulness exercises, biometric monitoring and live video/data streaming on the therapist dashboard with a serverless microservices backend on AWS.

Role: Backend Developer – Hono/Sequelize, Infrastructure Design, System Design, UX/UI, Communication.

TooPoopToGo – Programming Exam

iOS/Android mobile app and React management dashboard for searching, rating and suggesting public restrooms with gamification and networking. Full backend with authentication, OTP and REST API.

Role: Backend Developer – Django, System Design, Infrastructure Design, UX/UI.

Storyteller Campari x BookCity – Storytelling Exam

Editorial and branding/storytelling project with a realistic Campari x BookCity Milan 2024 brief. Creation of visual and communication materials, editorial layout, AI illustrations and social media communication assets.

Role: Art Direction, Editorial Design, Story Telling, Social Content.

YUGEN – Interactive Systems Exam

Interactive installation, designed for group experience inspired by the Japanese concept of Yugen. Built using various physical components connected with multimedia elements via Max8.

Role: Concept, Max8 Development, Set-up/Installation, Design, Documentation.
